

COMMON QUESTIONNAIRE - TOOLKIT FOR OBTAINING THE INFORMATION WHEN DEVELOPING THE MOBILITY PLAN

D.T3.2.1

03 2017

1. Vision

1.1. What kind of city do you want to live in?

- How shall the commuting situation of the employees be like?
- How shall the business travel situation of the employees be like?
- How shall the mobility situation and the behaviour differ from other employers and employees?
 - Do official institutions of the municipality have some kind of social responsibility or social mandate?
 - How far do the employees of the municipality act as role models?
- What do you expect from a mobility plan for your municipality, for your workplace, for the employees?

2. Existing Situation

- What is your opinion about the general state of traffic in the municipality, in the present location of your workplace?
- Where do you see the main problems?
- What is your opinion about walking conditions in the municipality in the present location of your workplace?
- Where do you see major problems in this area?
- What is your opinion on the situation of cycling in the municipality, in the present location of your workplace?
- Where do you see major problems in this area?
- What is your opinion on the state of public transport (bus and train) in the municipality, in the present location of your workplace?
- Where do you see major problems in this area?
- What are the main obstacles for the employees to change their mobility behaviour?
- Do you have a strategy/action plan to remove these obstacles?

3. Planning mobility measures

- Which transport system (roads, bicycle paths, public transport, walking surfaces and connections...) is most important to improve to foster sustainable mobility behaviour in your workplace? Why this one?
- What kind of actions can you suggest to achieve more sustainable mobility behaviour in your workplace?

-
- What shall the municipality as employer offer her employees regarding daily commuting?
 - What shall the municipality as employer offer her employees regarding business trips?
