

boDEREC-CE

modePROCON WEBINAR

INVITATION

Date: March 2nd 2022

Venue: Online Meeting

Version 01

02/2022

What is a modePROCON?

modePROCON is a model-based decision-making tool for emerging contaminants.

What is its main purpose?

“...The primary purpose of the tool is to guide the users towards performing solute transport model and field measurements for investigating fate and transport of emerging contaminants in the environment...”

Why is modePROCON important?

“...The active participation of stakeholders within the project underlines the importance of developing modePROCON as a tool to support decision making processes in water management systems...”

The modePROCON webinar Agenda, 2nd March 2022, 14:00 - 15:00

14:00 - 14:05	Registration and connection tests
14:05 - 14:35	modePROCON demonstration
14:35 - 14:50	Q&A session
14:50 - 15:00	Summary

The webinar will be hosted by **Mr Sudipto Bosu** from Technical University of Munich.

Mr Sudipto Bosu gained his B.Sc. in Civil Engineering with specialization in Environmental Engineering at the Bangladesh University of Engineering and Technology. Then he gained his master’s degree in environmental engineering, with a specialization in Hydrology and river basin management, the Urban water systems at the Technical University of Munich in Germany. Mr Bosu during his master studies was involved in the project so-called Development of an Application to Evaluate the Probability of Groundwater Contamination by Pharmaceutical and Personal Care Products. Since December 2020 he is involved in the realization of the boDEREC-CE project, where is responsible for establishing the modePROCON application.

A. Organisational Issues

Technical information:

The webinar will be held online through the meeting platform. You can access it via internet. Detailed information will be sent to participants after registration.

The webinar starts at 14:00 pm, to allow testing of the system and registration, and will last till 15:00. During the webinar the participant will have a possibility to ask questions about modePROCON application.

Each registered participant will receive a link to the online meeting. Registration is open till 28th February 2022. You can register online via the following link:

[Registration form](#)

The webinar recording will be available online after the meeting.

Information on participation:

- be on time,
- When registering for the meeting, please insert project partner number, acronym of your institution and your name; for example: *HGI-CGS_Name*
- During the demonstration part, the microphone and videos of your computers must be switched off to avoid background noise and limitation to the band width.
- The entire meeting will be moderated by Host. This means that only one person will give the floor to ask questions during Q&A session.

Language:

The webinar will be held in English.
