8 countries,
16 Associated Partners,
5 Business Support Organisations,
3 Research Institutes

PROJECT DURATION
1.07.2017 - 31.08.2020
Project budget 2,02 mln €
ERDF co-financing 1,66 mln €

Defining the KET Innovation Ecosystem & Assessing SME's KET service needs

The first activity foreseen in WPT1 is preparing the ground for the setting up of the transnational KET Access & Service Network through a double step approach:

- 1) **Understand and evaluate the present KET Innovation Ecosystems** and 2) **Assess the SME needs in regard to KETs, at regional level.**

This phase is rather critical to better understand which services could be part of the KET Access point portfolio.

Partners collect individual data concerning their specific KET's innovation ecosystem and include the outcomes of the analysis in the **Regional KET Innovation Ecosystem Profiles.**

Kick-Off Meeting 25-26.07.2017 Stuttgart, Baden-Württemberg

The Project Leader - Steinbeis-Europa-Zentrum hosted the project Kick Off Meeting. It represented the official start of KETGATE project and was the occasion for partners to meet, discuss and plan common activities to be undertaken during the whole project duration, as well as to present the Key enabling Technologies sector state of art in each partner region.
