

REEF 2W

REEF2W

**INCREASED RENEWABLE ENERGY AND ENERGY EFFICIENCY BY INTEGRATING,
COMBINING AND EMPOWERING URBAN WASTEWATER AND ORGANIC WASTE
MANAGEMENT SYSTEMS**

The REEF2W project aims at developing and implementing solutions for increasing energy efficiency and renewable energy production in public infrastructures. REEF2W means to pursue this objective by combining and integrating the relevant public infrastructures of municipal solid waste chain with the waste water treatment plants (WWTP), and by upgrading their input mix and their energy outputs.

This project is supported by the Interreg CENTRAL EUROPE Programme funded under the European Regional Development Fund.
