HŽ Putnički prijevoz d.o.o. (HŽPP) has a small team with wide experience in railway industry, including operations, sales and finances. The majority of company's operations is focused on the profitable urban regions, but as a State subsidized operator, the company wants to explore new possibilities in rural areas by introducing and testing new passenger services for different tourist purposes and in cooperation with different local authorities. Company's specific goal withing this project is to improve service coordination among regional transport systems and national/European transport network.
