RegiaMobil

The Saxon State Ministry for Regional Development (Sächsisches Staatsministerium für Regionalentwicklung, SMR) is part of the government of the Free State of Saxony. The fields of responsibility of the Ministry are internal affairs, state and regional development, geological survey, urban development, construction, housing, innovation. The main activities of the lead partner in the RegiaMobil project are the implementation activities planned in WP T1 and T2 on its territory and as a project partner, is also responsible for the work package management. The lead partner, together with representatives of the core-consult company, held a study visit, which was scheduled in the project. The study visits in the Czech Republic, which took place from 18th to 20th August has given a chance for SMR to benefit from PP4's results of Rumobil Project, as well as given the opportunity to deepen the cooperation with national and regional authorities in Central Europe, whereby the interests of the Free State of Saxony at national and transnational level and synergy effects are better perceived and articulated. The main purpose of the study visit was to learn about the results of the earlier Rumobil project. Lessons learned from this project will certainly allow the Lead Partner to properly assess future activities and potential benefits of participating in RegiaMobil.

Team:

Dr Ludwig Scharmman (Head of project)

Peter Just (Project finance manager)
