

Interreg CE4CE newsletter #1

Welcome to the CE4CE Newsletter & thank you for subscribing!

Our first newsletter includes:

- news from our project;
- news from our partners and
- upcoming events.

Greetings,

The INTERREG CE4CE Communication Team

ce4ce@mobilissimus.hu

NEWS FROM THE PROJECT

The Interreg CE4CE project kicked off in Leipzig

Getting to know each other and starting to work together for reducing the ecological footprint of public transport through a higher circularity: partners held a Kick-off meeting on the 23-24th May in Leipzig, organized by the lead partner Leipziger Verkehrsbetriebe.

Highlights from the Trolley90 & its sustainable future conference

The trolleybus system of Budapest celebrates its 90th anniversary this year, therefore experts from Hungary and Europe gathered in Budapest on 9th November 2023 to celebrate the trolleybus service and discuss the possibilities of its sustainable future from different perspectives. You can find the summary from the event [HERE](#).

A peek into our project partner Szeged Transport Company's work

Szeged Transport Company (SZKT)'s main role in the Interreg CE4CE project is carrying out two pilot actions: replacement of trolleybus switches and developing a universal model for the replacement of the malfunctioning door opening and closing control mechanism of Tatra tram vehicles. Activities were introduced through a site visit to Szeged. More details are available [HERE](#).

Communication and synergies seminar

On the 26-27th September, Interreg Central Europe hosted a communications and synergies seminar in Vienna for key beneficiaries of 53 transnational projects funded after the first call for proposals. Expert presentations, group training, and peer-to-peer exchanges, helped around 100 participants from across central Europe to further build their capacities on project communications and to identify concrete synergies. More information is available [HERE](#).

**Circular Cities Declaration to European local or regional
governments**

The European Circular Cities Declaration is designed to help accelerate the transition from a linear to a circular economy in Europe, and thereby create a resource-efficient, low-carbon and socially responsible society. Signing the Circular Cities Declaration offers many benefits to cities and regions. More information is available [HERE](#).

UPCOMING EVENTS

Conferences, events

15-18 April 2024: [Transport Research Arena](#). Register [here](#).

14-16 May 2024: [IT TRANS](#). Registration will open soon.

11-13 June 2024: European Sustainable Energy Week(EUSEW). Application call is partly available here.
