

Testing new ways to bring border regions closer together

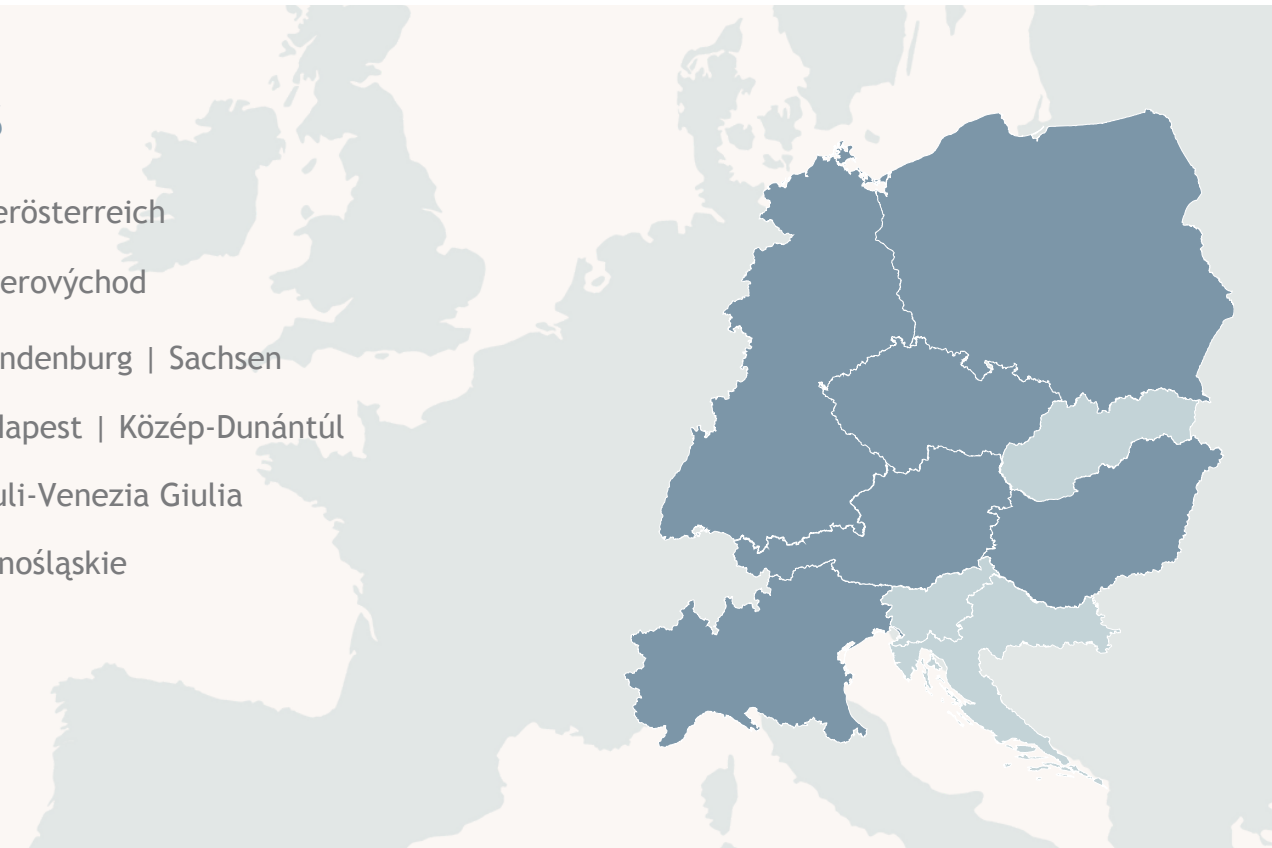

Thanks to EU integration, borders across countries have been softening - but public administration and policies still do not sufficiently address the needs of cross-border communities. The project BorderLabs CE will change this by improving public capacities for participatory cross-border cooperation. Partners from six countries jointly develop and pilot new governance models and solutions for integrated cross-border strategy development. They also investigate new approaches to participatory governance, the cross-border development of sustainable tourism, the cross-border marketing of local products, and the reduction of border obstacles.
