

December 2024 – May 2025

Dear TASK4ISI Community,

We're excited to bring you the latest updates from our ongoing TASK4ISI project, where progress continues to inspire and innovate!

Advancing inclusive entrepreneurship: The journey continues

Since our project kick-off, TASK4ISI has continued making strides in promoting inclusive entrepreneurship and social innovation across Central Europe. Following the establishment of ISIHUBs in all partner regions, our focus shifted toward strengthening these hubs, fostering collaboration, and developing tools to support “missing” entrepreneurs.

Highlights from the past months

From strategic meetings in Budapest to hands-on support in local ISIHUBs, the past months have been marked by deepened collaboration, shared learning, and concrete steps toward empowering underrepresented entrepreneurs across Central Europe.

Budapest: Steering Committee meeting, 1st Transnational exchange, and 1st TNISIHUB meeting

In December 2024, partners gathered in Budapest for two key events hosted by Impact Hub Budapest and Magyar Gazdaságfejlesztési Ügynökség.

- At the Steering Committee meeting, we reviewed project progress, addressed challenges, and planned next steps to keep TASK4ISI on track.
- The 1st Transnational exchange meeting, also serving as the inaugural TNISIHUB meeting, brought partners together to share regional practices, discuss ISIHUB sustainability, and explore collaborative strategies to foster inclusive entrepreneurship.

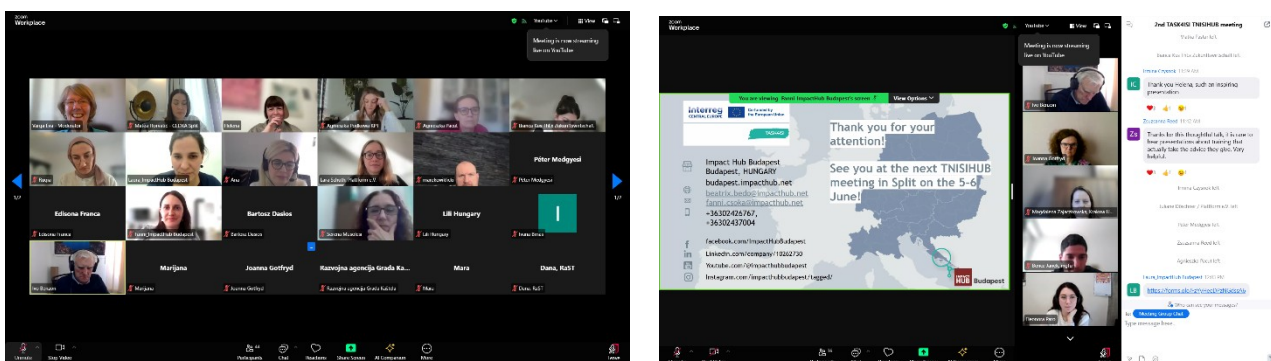

Both events reinforced our commitment to mutual learning and inclusive innovation.

More photos and highlights from Budapest are available on our website and social media channels.

Second TNISIHUB meeting: Continuing the collaboration

In March 2025, the second TNISIHUB meeting was held online, providing a platform to continue the exchange initiated in Budapest. Partners discussed regional progress, aligned approaches, and explored shared actions to strengthen the transnational ISIHUB network. This meeting played a key role in maintaining momentum and preparing the ground for the next in-person exchange in Split.

Local ISIHUB activities: Supporting entrepreneurs on the ground

Since their launch, ISIHUBs have been busy engaging local stakeholders, hosting events, and building networks. Examples include:

- Stakeholder meetings, connecting representatives from public institutions, business support organizations, and aspiring entrepreneurs.
- Networking events and workshops focusing on inclusion and entrepreneurship for underrepresented groups.
- Regional collaborations in exploring ways to support entrepreneurs in disadvantaged rural areas.

Each ISIHUB is tailoring its approach to local needs while staying connected through the Transnational Network of Inclusive and Sustainable Innovation Hubs (TNISIHUB).

February ISIHUB meeting in Germany

Developing key project outputs

Over the past months, partners worked on two key deliverables:

- Rules of Procedure for TNISIHUB – setting the structure, roles, and collaborative mechanisms of the transnational network.
- Framework Programme for Inclusive Entrepreneurship – a plan outlining how ISIHUBs will deliver skills development, mentorship, and networking opportunities to aspiring entrepreneurs, particularly those from marginalized backgrounds as part of the Business Skills and Business Matchmaking training programmes.

These tools will guide the next phases of the project and strengthen the regional innovation ecosystems.

What's next?

Looking ahead, we're preparing for our third TNISIHUB meeting in June 2025, which will take place in person in Split, combined with a Steering Committee and partner meeting to evaluate our progress and set clear directions for upcoming activities. One of the main topics will be preparation of the Business Skills and Business Matchmaking training programmes which will be launched later this year in supported regions.

We're excited to continue fostering meaningful collaborations, exchanging innovative ideas, and driving positive impact for entrepreneurs across Central Europe.
