Online Transnational Webinar

TRANSNATIONAL WEBINAR TO DISSEMINATE PILOT ACTION RESULTS AND TO SUPPORT TRANSFERABILITY

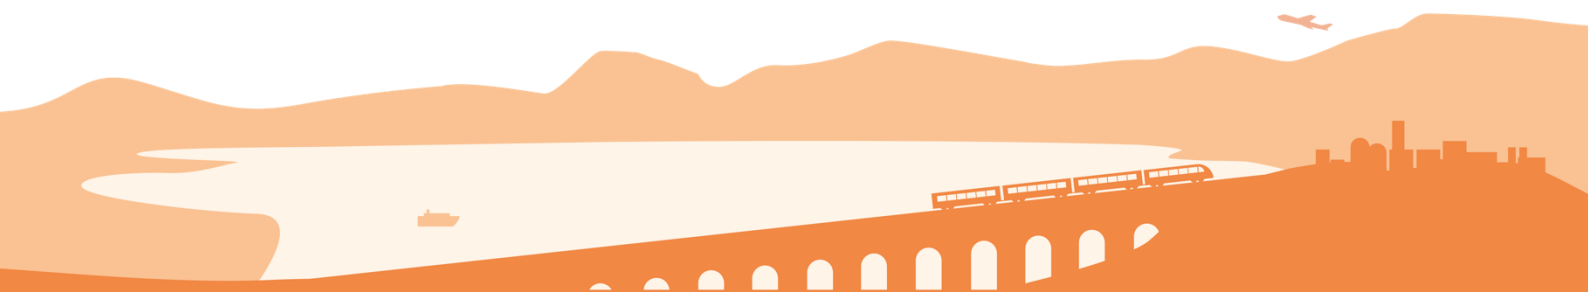

Innovative Solutions and Transferability for Crossborder and Peripheral Mobility

22nd September 2025
9:30 - 11:30

Significant efforts have been made to improve connectivity and access to sustainable mobility in peripheral and cross-border areas. These initiatives respond to challenges such as fragmented transport networks, limited accessibility, and insufficient infrastructure, all of which hinder regional cohesion and environmental sustainability.

European policies continue to promote a greener and more inclusive future by encouraging cooperation, innovation, and the reduction of emissions through sustainable transport solutions. Achieving these goals requires the development and implementation of innovative approaches in collaboration with relevant stakeholders across borders.

This session provides an opportunity to acknowledge the progress achieved and highlights the importance of ongoing cooperation to advance effective, transferable solutions that enhance mobility and connectivity throughout the region.

AGENDA

9.15 - 9.30	Online registration
9.30 - 9.45	Official opening of the Transnational online Conference Mr. Carlo Fortuna - LP CEI-ES
9.45 - 10.15	Enhancing Connectivity in Peripheral and Cross-Border Areas through Innovative and Sustainable Mobility Solutions <i>Presentation of the Results of the Pilot Actions and the Long-Term Sustainability Guidelines</i>
