

The Power of Green Public Procurement

Circular/Green Public Procurement (C/GPP) a key policy tool for:

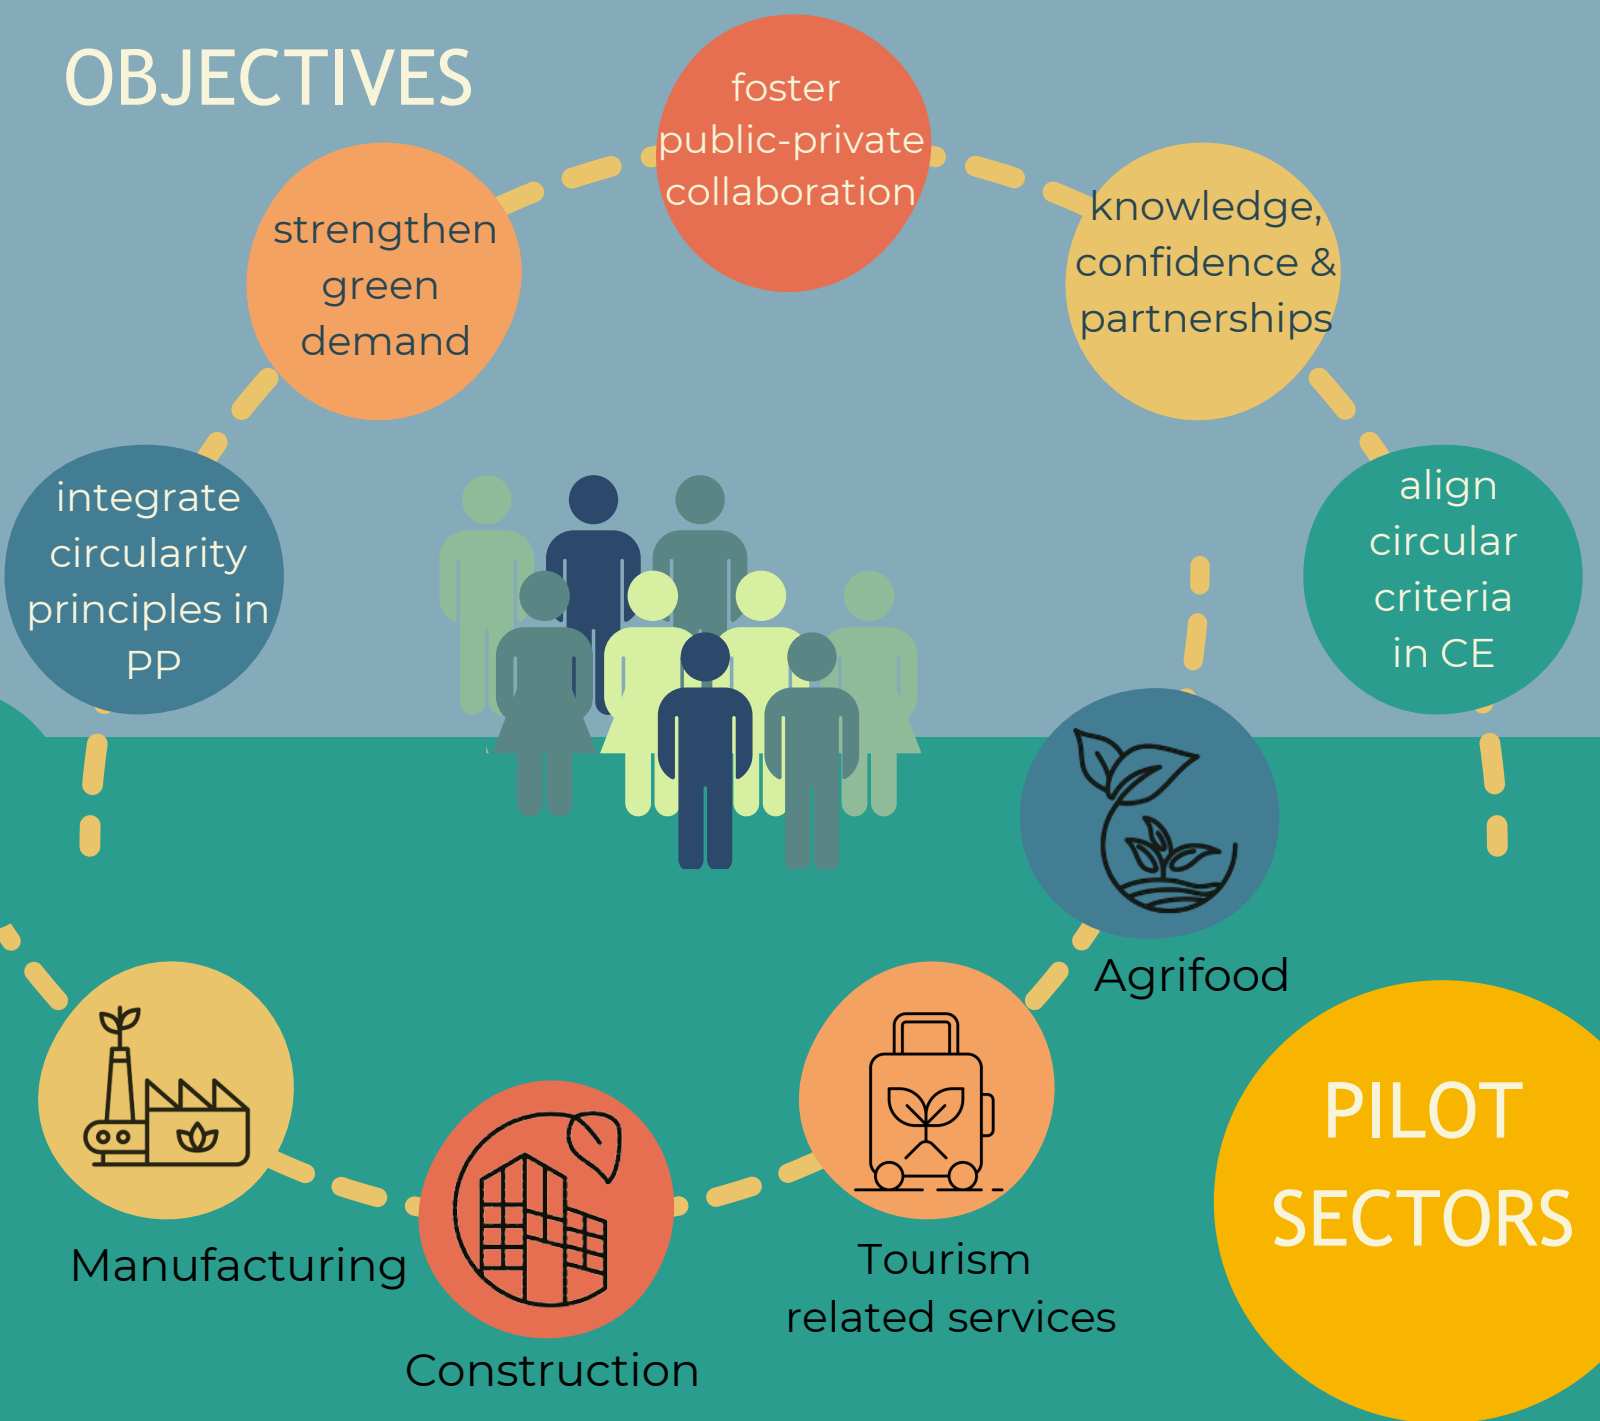

- Focus on the whole life cycle of goods and services
- Reduce environmental impacts
- Embed circular economy principles
- Boost companies' circularity
- Accelerate green transition and eco-innovation

CHALLENGES

- Public-private misalignment
- Limited knowledge, skills and practices
- Fragmented standards and criteria
- High complexity and costs

OBJECTIVES

EXPECTED IMPACT

- Enhanced skills and competencies of public and private stakeholders in circular practices
- Improved alignment of tenders
- Transnational cooperation
- Standardised criteria and tools
- Wider adoption of C/GPP in Central Europe
