

# COEXISTING WITH LARGE CARNIVORES

16 – 17 March 2026  
Zvolen, Slovakia

**SAVE THE DATE**

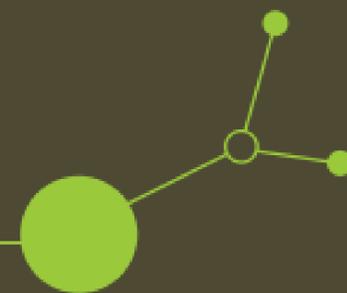

for the **LECA Final Conference** dedicated to the  
Challenges and Opportunities in Large  
Carnivores' Protection in the Carpathians.

*The Conference will be in English with translation to Slovak,  
Hungarian and Polish language.*

# PROGRAMME

## DAY 1

## CONFERENCE SESSION

A day dedicated to sharing insights and results from the LECA project and discussing large carnivore conservation in Europe:

- *Presentation of LECA project outcomes: monitoring harmonisation, conflict prevention, and anti-poaching measures*
- *Panel & lectures on lynx, wolf and bear conservation: status, challenges, and opportunities in the Alps and Carpathians*
- *Final discussion and conclusions*

## DAY 2

## FIELD TRIP

Explore practical conservation efforts in the field. Participants can choose one of two options:

- *Option 1: Lynx monitoring techniques*
- *Option 2: Preventive measures for coexistence with brown bears*

Stay tuned for updates! The detailed program, speaker list, and other conference information will be shared on [the project website](#). We'll also notify you by email as soon as registration opens.
