

# D.3.6.2 – Video tutorial

General report

Date of Report: 13 February 2026

## Document Control Sheet

Work package Number	2
Work package Title	GREENE 4.0 Innovation platform
Activity Number	6
Activity Title	Communication and Dissemination
Deliverable Number	3.6.2
Deliverable Title	Video tutorial
Dissemination level	Project
Main author	Bastian Hothas, TGZ Bautzen (PP2)
Contributors	Maja Sušec, PTP (LP)
Quality Assurance	Marko Močnik, PTP (LP)

## Versioning and Contribution History

Version	Date	Author/Editor /Reviewer	Contributors	Description/Comments
D0.1	09.02.2026	Bastian Hothas, PP2		Initial draft of document
D0.2	11.02.2026	Maja Sušec, LP		Minor improvements made
D0.3	12.02.2026	All PPs		Opportunity for additional feedback from consortium (no remarks)
D0.4	13.02.2026	Marko Močnik, LP		Quality assurance
Due date of deliverable		28.02.2026

C. Conclusion .....	4

## A. Executive summary

In Activity 3.6, TGZ Bautzen (PP2) created a video tutorial regarding the B2GreenHub's platform functionalities and tools. Following its creation, this video was uploaded to the B2GreenHub YouTube channel, where it will remain as both a starting point for stakeholders wishing to learn more about the platform and as a resource for the platform itself to be used as part of the onboarding of new users. It also references and links back to the video tutorials created under Activity 2.6, which introduces selected modules of the platform in greater detail.

## B. Video tutorial guidelines

As part of the work in Activity 3.6, GREENE 4.0 consortium member TGZ Bautzen (PP2) created a video tutorial providing an overview of the tools and functionalities of the B2GreenHub platform.

First, TGZ Bautzen wrote a script for the video and proposed it to PTP, Lead Partner for both the GREENE 4.0 project and B2GreenHub platform development. Following some revisions and additions, TGZ Bautzen set out to realize the production of the video project, using screen recording software (OBS Studio) and video editing software (Blender) to produce the video using the available resources. In order to make the tutorial easier to follow, and adhering to the style established for the videos under Activity 2.6, a cursor highlighter was also used when demonstrating functions of the platform. Also like under the previous activity, the TTSReader application was used to create the audio track for the video.

The finished video was uploaded to the B2GreenHub YouTube channel in February 2026 and can be accessed via the following link:

- [B2GreenHub Platform Tutorial](#)
  - This tutorial introduces the B2GreenHub platform via a brief, guided tour through its main modules and functionalities. Along the way, it makes reference to other tutorial videos which were produced earlier and describe the functions of modules such as the Open Innovation Map and the Private Equity Investment Readiness Tool in greater detail. In this way, it serves as a starting off point for new users, while also allowing them to learn more if they feel so inclined.

## C. Conclusion

In conclusion, PP2 with some support by PTP was able to successfully create a video tutorial under Activity 3.6, which both supplements and serves as a hub for the other tutorials created under Activity 2.6. Together, these videos represent a valuable resource for new users joining the platform, which will be useful beyond the duration of the GREENE 4.0 project.
