

RehAllianCE

SME Success Story

RehAllianCE - Strengthening the innovation capacity of SMEs in the rehabilitation sector

ADVANCING NEURO-DIAGNOSTICS THROUGH AR

Company: GAMETHERAPY S.R.O.

The Challenge

GAMETHERAPY is developing an innovative AR-based solution for neuro-diagnostics and rehabilitation. The company needed structured user-centred validation in clinical and home environments to refine usability, assess emotional and cognitive responses, and strengthen the solution's readiness for clinical validation and market deployment.

The RehAllianCE Support

Through the services provided by RehAllianCE, GAMETHERAPY received structured user-centred validation, multimodal user feedback, physiological analysis, and expert guidance. Real-world testing helped identify usability improvements, validate user comfort and engagement, and refine the solution, significantly strengthening its readiness for the next stages of clinical validation and market development.

SME Testimonial

The RehAllianCE validation services provided us with valuable insights that significantly improved the usability and readiness of our AR-based rehabilitation solution. Real-world testing, user feedback, and physiological analysis helped us refine our prototype and confidently prepare for clinical validation. We highly appreciated the professional support and collaborative approach throughout the process.
