

RehAllianCE

SME Success Story

RehAllianCE - Strengthening the innovation capacity of SMEs in the rehabilitation sector

ENHANCED REHABILITATION FOR GREATER INDEPENDENCE

Company: MORECOGNITION

The Challenge

Morecognition joined the pilot to contribute clinical and technical expertise to the validation of project outputs, share practical insights from real-world rehabilitation pathways, and help refine recommendations for providers and policymakers. The company also sought to connect with rehabilitation ecosystems across partner countries and explore opportunities for future collaboration and pilot activities.

The RehAllianCE Support

Through the services provided by RehAllianCE, Morecognition received valuable expert analysis, structured feedback, and strategic insights on clinical value, regulatory gaps, and market access. The support helped clarify priorities for evidence generation and market readiness, while also highlighting the value of more proactive matchmaking and additional country-specific market access information.

SME Testimonial

RehAllianCE provided valuable market, regulatory and competitive insights, plus an external expert review, which helped us prioritise countries and define the next steps for scaling our rehabilitation solution. The deliverables reduced uncertainty and accelerated our go-to-market planning.
